

Photoshop CS5: Creative Techniques

Sapura Unique Training Guarantee invites participants back for unlimited refresher courses within the same software version, no questions asked!

Sapura Genuine Offer will match other training providers' prices + a further 10% off all course fees if you can prove that the content covered is similar.

COURSE OVERVIEW

Have you ever wondered how special effects are created in many of today's magazines and advertisement posters? The answer lies in knowing the tips and techniques you will discover in our Photoshop Creative Techniques course.

In this course, we provide you with step-by-step guidance on creating real-world commercial projects. You will soon be able to create amazing digital masterpieces using Photoshop!

WHO SHOULD ATTEND

Participants should have attended both the basic and advanced Photoshop courses or are familiar with Photoshop tools and concepts such as selection methods, different types of masking, adjustment layers and layer styles. Participants should also be familiar with channels, paths and filters.

DURATION

1 Day

TIME

9.00am - 6.00pm

COURSE OUTLINE

Silhouette Effects

- A quick, simple yet effective way to create an advertisement poster

Changing Colors using Adjustment Layers

- Easily change the colors of part(s) of an image in seconds

Special Effects for Text

- Create text that looks like ice or fire, and the ability to create other variations with the effects

Superimposing an Image onto Another

- Blending an image onto another while maintaining all the shadows, highlights and textures of the underlining image

Carving a Textured Surface

- Carve any logo from a textured surface using a Displacement map

Creating a Sketch Effect

- Convert a photograph into a realistic looking hand-sketch, with or without colours

Reproduce Picture Cut-out

- Bring the subject of your photograph into focus by applying some interesting effects to it

Reflections & Wave Effects

- Using Displacement map, gradient, filter and image warp to produce a convincing-looking water reflection

Making a photograph looks old

- Using several techniques to convert a coloured image into a aged photograph

Filmstrip Effect

- Applying a filmstrip effect to group several photographs together in an elegant design
